

Bash (v1.1)

1. Description

Returns a random quote from <http://www.bash.org>

Takes a single quote from the random page and displays the quote to the channel.

2. Configuration

The configuration file for this plugin is **system/Bash/BashConfig.xml**

2.1. commandBash

The command for fetching a random quote from bash.org. You can set the authLevel to control who is allowed to access the command. The output is used to define where the output from the command will go.

- **authLevel** - ANY, ADMIN, MASTER, TRUSTED, NONE
- **output** - CHANNEL, PM, NOTICE

```
<commandBash authLevel="none" output="channel">!bash</commandBash>
```

2.2. bash_URL

The URL to the page of random bash quotes.

```
<bash_URL>http://www.bash.org/?random</bash_URL>
```

3. Commands

3.1. Random bash quote

Command: !bash

Description: This will request a random quote

Auth Level: none

Where to give command: channel

Outputs to: channel

Example(s):

- !bash
