

# Introduction (v1.0)

## 1. Description

Shows some introduction text to someone the first time it sees them (based upon hostmask or nick)

## 2. Configuration

The configuration file for this plugin is **system/Introduction/IntroductionConfig.xml**

### 2.1. commandIntro

The command shows the introduction message. You can set the authLevel to control who is allowed to access the command. The output is used to define where the output from the command will go.

- **authLevel** - ANY, ADMIN, MASTER, TRUSTED, NONE
- **output** - CHANNEL, PM, NOTICE

```
<commandIntro authLevel="none" output="notice">!intro</commandIntro>
```

### 2.2. message

The option for adjusting plop. Valid values are yadda yadda..

```
<message>Welcome to #XYZ. Type something for some info or something-else to do something neat</message>
```

## 3. Commands

### 3.1. !intro

**Command:** !intro

**Description:** This will show the introduction message

**Auth Level:** none
