

InviteBot (v1.0)

1. Description

Respond to invites sent by other users.

When somebody invites the bot to join a channel, the InviteBot checks if the auth level is high enough and if so then the plugin joins the channel in question.

2. Configuration

The configuration file for this plugin is **system/InviteBot/InviteBotConfig.xml**

2.1. authLevel

The authLevel controls who is allowed to invite the bot to channels.

```
<!-- authLevel: ANY, ADMIN, MASTER, TRUSTED, NONE -->  
<authLevel>master</authLevel>
```

3. Commands

4. Change History

v1.0	First Version by xkr47 .
