Links (v1.0)

1. Description

Keeps a record of links it has seen.

Links from channel chats are stored and can be requested with search criteria.

2. Configuration

The configuration file for this plugin is **system/Links/LinksConfig.xml**

2.1. commandShowLinks

The command for getting a full listing of links tracked via DCC chat. You can set the authLevel to control who is allowed to access the command.

• **authLevel** - ANY, ADMIN, MASTER, TRUSTED, NONE

```
<commandShowLinks authLevel="none">!links</commandShowLinks>
```

2.2. commandSearchLink

The command for searching through the tracked links. You can set the authLevel to control who is allowed to access the command. The output is used to define where the output from the command will go.

• **authLevel** - ANY, ADMIN, MASTER, TRUSTED, NONE
• **output** - CHANNEL, PM, NOTICE

```
<commandSearchLink authLevel="none" output="channel">!link</commandSearchLink>
```

2.3. commandRemoveLink

The command for removing a link. You can set the authLevel to control who is allowed to access the command. The output is used to define where the output from the command will go.

• **authLevel** - ANY, ADMIN, MASTER, TRUSTED, NONE
• **output** - CHANNEL, PM, NOTICE

```
<commandRemoveLink authLevel="trusted" output="notice">!rmlink</commandRemoveLink>
```

2.4. links

The list of tracked links.
