

# Reminder (v1.0)

## 1. Description

Reminds you of something after a given amount of time.

Leave a reminder with the bot for yourself in normal language and get notified when the reminder time is up. You can then pop a pizza in the oven and tell the bot to remind you in 15 minutes to take the pizza out of the oven, so that as you get back to your IRC chatting or other activities, you will be notified (and probably highlighted) when the bot reminds you that it is time to do something.

## 2. Configuration

There is no configuration file for this plugin.

## 3. Commands

### 3.1. Set a reminder
