

Translate1337 (v1.0)

1. Description

Translate latin letters to 1337 (elite) letters.

This plugin can translate single latin letters to single - or multiple - 1337 letters in the official 1337 alphabet. It can also translate to the more common 1337 spoken on most game servers.

2. Configuration

The configuration file for this plugin is `system/Translate1337/Translate1337Config.xml`

2.1. alphabets

Not configuration is actually needed, but you can extend the three alphabets with additional comma-separated letters if you like. Just remember that the latin letter must be only one character. The default config have support for the scandinavian alphabet, so it should be easy for you see how to extend it further with german, french, spanish or other letters.

```
<latin>a,b,c,d,e,f,g,h,i,j,k,l,m,n,o,p,q,r,s,t,u,v,w,x,y,z,æ,ø,å</latin>
```
