UserGreeting (v1.0)

1. Description

Records a message to greet users with when they join the channel.

Records a user-specified message that will then be used to greet that user whenever he/she joins the channel.

2. Configuration

The configuration file for this plugin is **system/UserGreeting/UserGreetingConfig.xml**

2.1. commandSetGreeting

The command for setting a greeting message. You can set the authLevel to control who is allowed to access the command. The output is used to define where the output from the command will go.

- **authLevel** - ANY, ADMIN, MASTER, TRUSTED, NONE
- **output** - CHANNEL, PM, NOTICE

```
<commandSetGreeting authLevel="master" output="channel">!setinfo</bla>
```

2.2. commandRemoveGreeting

The command for removing a greeting message. You can set the authLevel to control who is allowed to access the command. The output is used to define where the output from the command will go.

- **authLevel** - ANY, ADMIN, MASTER, TRUSTED, NONE
- **output** - CHANNEL, PM, NOTICE

```
<commandRemoveGreeting authLevel="master" output="channel">!reminfo</bla>
```
